Predicting & Resolving Critical Issues in Academic-Practice Partnerships

Michelle A DeStefano MPA, RN, NEA-BC, Jean Dowling Dols PhD, RN, NEA-BC, FACHE, & Mary M Hoke PhD, RN-BC, APHN-BC, ANEF

COLLABORATION, COMMUNICATION & LEADERSHIP

Plan Approval and Oversight

- CAUTI Team
- CLASSI Team
- Research Team
- Redesign Team

RESULTS

- Exemplary partnership model produced successful endeavors for both the University and the Hospital

- Retention & Recruitment
  - UIW-MSTH Internship Program - 90% of interns recruited to MSTH
  - Staff - First year turnover decreased from 12% to 11.2%

- Engagement
  - ICU increased 4% on employee engagement in voice, culture, and quality

- Scholarly work
  - Research:
  - Publication:
  - Presentations:

- Evidence Based Education
  - Hospital-wide Education on Evidence Based Practice (EBP) provided.
  - Unit-Specific Education and mentoring on Implementation of EBP provided.

- Results:
  - Demonstrated increase in knowledge regarding EBP
  - Demonstrated increase in confidence in implementation of EBP

- Clinical Improvements through Evidence Based Practice Implementation
  - CAUTI
    - CAUTI Prevention Protocol developed, piloted, and implemented hospital-wide
    - CAUTI Education/Adherence Forms developed – Competency Checklists, Audit Tools
    - CAUTI Procedure to Hardwire CAUTI Prevention Protocol developed and implemented
    - Reduction in CAUTIs
  - CLASSI
    - CLASSI Prevention Protocol developed and implemented hospital-wide
    - CLASSI Education/Adherence Forms developed – Competency Checklists, Audit Tools
    - Reduction in CLASSIs
